

I am writing to you on behalf of the radio station that I listen to which is K-Love and is heard on 105.5, 89.9 and 100.9 in this area.

I am so blessed by listening to this christian station. I listen to this station 98% of the time I listen to radio. If k-Love was removed from the Phoenix airwaves, it would have a tragic effect to our community. This station shares in our prayers and needs on a day to day basis. They keep us informed on christian activities in our area. K-Love cares about our community and the needs of our community. Please don't take our christian radio station away from us.

It is safe for our children to listen to with no foul language or sexual overtones. This station cares about what we hear. It has a positive effect on our behavior and encourages us daily. Thank you for your time in reading my comments, Julie Rathier
